

Create new event

"As an event creator I want to be able to create new events so that the event is ready for use"

- * an event is created under the creator's account
- * the event is unique
- * the event can be shared with others

Sign up for an event

"As an interviewee, I want to be able to sign up for an event so that I can be interviewed"

- * display event information and available times
- * a single time slot is chosen and filled
- * interview confirmation is sent to both parties

Add other interviewers

"As an interviewer, I want to be able to add other interviewers so that they can add their availability too."

- * collaborator accounts are added to the project
- * other interviewers have ownership of the event

Set availability

"As an interviewer I want to be able set my availability within the event so that times are made available for interviewees"

- * interviewers are able to input their availability in a form
- * availability is saved to the event

Set open slot criteria

"As an interviewer I want to set the criteria for a time slot to be open so that time slots are open only when certain criteria are met (enough interviewers or certain people)"

- * Set criteria such as
 - Number of interviewers
 - Certain interviewers are available
- * Criteria affect the 'available' times that interviewees can sign up for

Create account

"As an interviewer, I want to create an account so that I can access scheduling."

- * Can create a unique email/password combo that can be used to log in later
- * account information is stored with the user

Login to account

"As an interviewer, I want to login to my account so that I can schedule interviews."

- * correct username and password grants the interviewer access
- * ability to reset forgotten password

Prevent interviewee selections from overlapping

“As an interviewer, I don’t want interviewees to sign up for the same time slot, so that each interviewee can have their own interview.”

- * Once an interviewee signs up for a time slot, that slot is no longer available to other interviewees

Update event details

“As an interviewer I want to update event details so the event has an accurate date range and description“

- * Updated fields are entered and saved
- * date range can be shifted, increased, or decreased
- * time range can be shifted, increased, or decreased

View scheduled interviews

“As an interviewer, I want to be able to view the interviews that have been scheduled, so that I can know when I have an interview coming up and who I am interviewing.”

- * display all scheduled interviews
- * display scheduled interviews assigned to interviewer
